

ITU Project Artiscope

Tomáš Brablec (xbrabl04)
Abas Hashmy (xhashm00)

Assignment

- Application for sharing images, inspired by Instagram, Pinterest, etc.
- More powerful search and filtering options for finding specific content
- Advanced categorization of posts into user galleries and subgalleries

Deviations from the original plan

- Gallery tags were not implemented
- Collections had redundant functionality, so they were not implemented

- xbrabl04
 - Tested creating, modifying, and looking up posts
 - Distinction between required and optional info (fixed)
 - Unclear meaning of action icons above a post
- xhashm00
 - Tested creating, modifying and managing galleries for a feedback from a user
 - Deleting should have a warning before the task is executed
 - Galleries should contain user profile button
